

OZONE BASIC SEMINAR

The basic seminar imparts fundamental knowledge of **ozone therapy** and can be attended without prior knowledge of this form of therapy.

In addition to **theoretical basics**, the focus is primarily on **practical exercises** and tips from the everyday practice of experienced experts and therapists.

At the end of this seminar you will be able to use ozone therapy safely and confidently for the benefit of your patients.

We look forward to seeing you.

The basic seminar is held by Fabrice Leu.

Fabrice Leu is a Naturopathic Practitioner with Advanced Federal Diploma of Higher Education. He is also a Trainer with Federal Diploma of Higher Education. He currently serves as President of the ASNFD, the Swiss Association of Naturopaths with Federal Diploma (www.asnfd.org). He has been running a naturopathic practice for 30 years. In his practice, he frequently uses bio-oxidative therapies, such as ultraviolet blood irradiation, ozone auto-hemotherapy, and intravenous vitamin C.
