

Certificate of Competence in Ozone Therapy

In this course you will gain essential knowledge and practical skills to safely and effectively apply ozone therapy for your patients. This training is tailored to both physicians and naturopathic practitioners, ensuring a thorough understanding of the theory and practice of ozone therapy.

Why You Should Not Miss This Training

This internationally oriented program delivers expert knowledge combined with hands-on application. Learn a range of ozone therapy techniques and how to integrate them into your individual practice concept.

Participants who successfully complete the assessment will receive a
Certificate of Competence in Ozone Therapy.

Who Should Attend

Physicians and naturopathic practitioners who wish to actively integrate ozone therapy into their patient care.

Course Highlights

In-depth theoretical knowledge

- Fundamentals of ozone therapy
- Dosages, intervals and protocols
- Indications and contraindications

Comprehensive Practical Training

- Major autohemotherapy
- Rectal insufflation
- Injections
- Bag insufflation
